BIG TIME benefits as an AuTO-CA member ...

Political & Industry Strength

You become part of a powerful pro-active voice to address legislative, regulatory, and industry issues that directly affect your survival and success in the automotive aftermarket. Without this strength in today's highly regulated environment, special interests win, and you lose!

Information & Publications

You receive all crucial and relevant information in time to position yourself for survival and ultimate success when industry trends, laws, and regulations change. Staying current and in compliance with ever-changing regulations can save you from fines and legal headaches.

All of Your Insurance Needs

You can access every type and class of insurance you need and want, at discounted group rates, through the AuTO-CA/Wateridge Insurance Services Group Program: workers' compensation; garage/station liability; group & individual health; life; homeowners; automobile; etc. If you need it ... we've got it for you!

Legal Services

You receive professional legal counsel by specialists in all facets of your industry at less than \$25/hr. for up to six hours per year with AuTO-CA's optional Legal Plan. Where else could you get expert legal advice specific to your industry, when you need it most, at such incredible savings?

Business Forms

You save on all of your printing needs – 3 and 4-part work orders, stationery items, fliers, coupons, etc – through the *IMPRESSIONS IN INK* Print Shop. Your printing will be done by experts in your industry, and it always pays to buy from the expert. And to top it off... you'll get quality printing at discounted prices!

Credit Union

You and your employees have available to you the many cost saving advantages of a full service credit union. Apply for loans of all types at lower interest rates, while your savings grow larger, earning higher interest rates – the advantage of credit unions over banks!

the association for automotive professionals

Membership doesn't cost... it pays!
